

Draw some attention with Hamilton marketing tools.

Grab their attention with Hamilton marketing tools!

Let Hamilton's promotional products help you entice more customers. Hamilton Manufacturing Corp. not only produces high quality equipment but also has excellent promotional products to help market your business. Our promotional products help to draw new customers to your place of business as well as entice them to keep coming back.

Tokenotes®

Tokenotes® are the size of the dollar bill and are accepted like paper currency. They can be valued from 25¢ to \$63.75 and are reusable. Tokenotes® can be used to offer a discounted value off of one or more of your products or can be used for the full credit of an individual product.

Customer Value Cards

Customer Value Cards work in conjunction with the Data Access Network. The cards are the same size as a credit card and work like a gift or fleet card. The cards can be valued from \$5.00 to \$500.00 and the cards are rechargeable.

These products can be customized with your company logo and text. Both the Tokenotes® and Customer Value Cards are the perfect size for mailers. They are excellent for fund raisers to help out your local schools or charities while at the same time drawing attention to your business.

Promotional Web Service

With all the convenience of today's Internet, Hamilton's Data Access Network personalized e-commerce web site can transform the way you do business.

Using your company logo and promotional information, let Hamilton customize an e-commerce site for you. The e-commerce web site allows your customer to purchase or recharge Customer Value Cards, Tokenotes® and other products online. Advertise discounted products and provide special promotions to your loyal customers when they recharge their cards online.
